

Dom Vieira

Sr. Vice President, Business Development and Client Services

J.D. Power

Dom Vieira is the Sr. Vice President of Business Development and Client Services for J.D. Power.

With over 30 years of experience in the automotive industry in a variety of roles, Dom focuses on leading a team of seasoned professionals to solve client business challenges utilizing our data, solutions and insights. Dom drives the development of industry leading best practices, defining go-to market and sales strategies while providing strategic oversight for over 1,000 client accounts and \$350MM in revenue. Dom's focus is on corporate transformation, client satisfaction and revenue growth as the business continues to grow and requires continuous operational improvement.

Dom has supported the Autodata Solutions business development and client services team for the last 10 years. Prior to that, Dom spent the last 20 years with various companies such as EDS, Proxicom and iCrossing in global leadership roles.

Dom holds a BS in Information Technology from DeVry Institute of Technology.
