J.D. Power to Merge with Autodata Solutions, Creating a Leading Source of Automotive
Data, Analytics and Software Solutions

Acquisition by Thoma Bravo Combines Two Innovative and Complementary Automotive Data
Companies with Vision of Strengthening Their Value to Clients and Consumers

intelligence, today announced a merger with Autodata Solutions, a provider of data and
software solutions for the automotive ecosystem. The merger marks the completion of J.D.
Power’s acquisition by Thoma Bravo, a leading private equity firm, and owner of Autodata
Solutions. The newly combined company will operate under the name J.D. Power and will offer
market-leading new and pre-owned automobile transactional data, valuation tools, vehicle
feature information and consumer analytics to the automotive industry. J.D. Power will also
continue to provide industry leading benchmarks, analytics and customer insights across the
Banking & Payments, Wealth & Lending, Telecommunications, Insurance, Health, Travel and
Utilities sectors through its Global Business Intelligence division.

“The combination of J.D. Power’s deep data, analytics and customer experience insights with
Autodata Solutions’ comprehensive vehicle feature data and dealer and manufacturer
technology platforms will create a robust and insightful automotive industry resource for
analyzing consumer demand and optimizing the vehicle sales process,” said Dave Habiger, who
will continue as President and CEO of J.D. Power. “As the auto industry continues to be
disrupted by changing patterns of consumer behavior and new technologies such as connected
vehicles, electric vehicles, autonomous vehicles and ridesharing, we are building a company
that will help the entire industry rise to the challenge.”

J.D. Power has been delivering incisive industry intelligence on customer interactions with
brands and products for more than 50 years. The world’s leading businesses across more than
da dozen different industries rely on J.D. Power data, research and insights to guide their
customer-facing strategies, while consumers around the world look to J.D. Power ratings as the
undisputed mark of quality.

In the automotive sector, J.D. Power is recognized for its Voice-of-the-Customer research and
its Power Information Network (PIN) and Used Car Guide (UCG) products, which provide the
industry with new and used car transaction information. The company has also pioneered the
use of artificial intelligence (AI) capabilities to merge its vast database of consumer behavioral
data, pricing information and “Voice of the Vehicle” telematics-based data into powerful
predictive models.

Autodata Solutions provides Software as a Service (SaaS) and software solutions that range
from back-end automation systems that enable dealer-to-original equipment manufacturer
(OEM) vehicle ordering to data-driven, consumer-focused interactive marketing initiatives. Its
Chrome-branded solutions increase the effectiveness of the automotive sales ecosystem and
include rebates and incentives, Vehicle Identification Number (VIN) decode and describe, and
vehicle configuration and comparisons.
Together, the two companies create a complementary set of capabilities that will strengthen the global automobile industry’s ability to forecast vehicle demand and shape strategic decision making.

“The joining of these two leading companies will enable the auto industry to make the process of configuring, ordering and selling cars more efficient, which can improve profitability and capital deployment,” said Scott Crabill, a Managing Partner at Thoma Bravo. “This capability is exactly the kind of proven, concrete insight the auto industry needs as it confronts changing consumer demands in a transforming technology environment.”

“The new J.D. Power delivers the authoritative ground truth and predictive intelligence the automotive industry so desperately needs right now to stay in sync with changing patterns of consumer behavior, rapid-fire technological change and a challenging macroeconomic environment,” said Craig Jennings, former President and CEO of Autodata Solutions, who will continue as President of the Autodata division in the newly combined J.D. Power. “By pairing our platform with J.D. Power’s deep data and analytics capabilities, we’re going to be able to take the guesswork out of the manufacturing and floor planning process, helping manufacturers and dealers drive maximum impact and profitability by getting the new vehicle formula just right. We are excited to be joining the J.D. Power team to make that vision a reality.”

In addition to the investment by Thoma Bravo, J.D. Power’s existing management team will reinvest their ownership interest in the newly combined company. All of the current Autodata Solutions and J.D. Power employees will have the opportunity to take an ownership stake in the company.

The headquarters for the combined company will be in Troy, Mich.
